

Zingeroo Zones Defined:

Zingeroo Zones are optional free events that users can enter to see how their portfolio competes against other users. The Zingeroo app gives you the opportunity to purchase real stocks and trade options. As you manage your portfolio, you can enter any eligible Zone that is still open for registration. Once it starts, you can track your performance against other users.

- You must enter the Zone prior to the cut off date.
- Once the Zone begins, your rank is determined based on the current value of your positions relative to their cost basis at the start of the Zone.
- Positions may be added (new purchases) or sold at any time during the Zone.
- Once a position, (that is part of the Zone) is sold, the return is locked in for that Zone.
- Each Zone will have its own set of rules, duration and eligibility criteria, details can be found in the App.
- Once the Zone completes you will see how you compare with the leaderboard. You are not required to sell any positions before a Zone ends

You can also see your overall performance of any position within your Portfolio.

How to Enter:

1. Download the Zingeroo App
2. Create an Account and Deposit Funds
3. Once approved, you can manage your portfolio and join a Zone
4. Track your Zone performance through the live leaderboards

Type of Zones:

Portfolio	Enter your entire portfolio-- all of your current stock and options positions count towards you ranking. Compete against friends or strangers and track your ranking on Zingeroo's live leaderboard.
Pick'Em [Coming soon]	Select your top stocks and/or options positions to enter Zones. Only the performance of these positions will count toward your leaderboard ranking, so choose wisely
Sectors [Coming soon]	Choose from various sector specific Zones. Each zone will have a list of eligible tickers, based on the sector. Any positions your hold where the Ticker is eligible, is used to determine your leaderboard position.
